Forklift Applications

- High Level Order Picker
- Very Narrow Aisle

Variable torque motor and parking brakes

Warner Electric/Matrix International is a world leader in the design and manufacture of hydraulic, pneumatic and electromagnetic brakes and clutches for battery powered vehicles. We offer a full range of traction motor and load wheel brakes and specialize in customized solutions to meet your specific performance and installation requirements. We have over 60 years of experience delivering high technology, cost effective braking systems.

Warner Electric/Matrix International provides the highest quality forklift truck brakes engineered to meet your requirements. We offer production, engineering and application support from our facilities in Europe, the U.S. and China. Contact us today to discuss how our dedicated engineers can assist you.

- Variable torque braking
- Automatic wear adjustment
- Dynamic braking
- Zero-power parking brake
